Phase 3, Block 7, Lupang Pangako,
Payatas B, Quezon City, Philippines

UI/UX Designer and Design Engineer with strong skills in creating intuitive, user-centered designs and implementing them into responsive, functional digital solutions. Highly collaborative, detail-oriented, and committed to continuous learning and growth. Skilled at combining creativity with technical execution to deliver designs that enhance user experience and support business goals.

EXPERIENCE

UI/UX DESIGNER

U-BIX Corporation

May 2024 - Present

- Design visually engaging and user-friendly web interfaces in Figma, ensuring brand consistency across all corporate affiliates.
- Build and optimize Wix and WordPress websites using Elementor, focusing on responsiveness, speed, and performance.
- Leverage AI tools to enhance efficiency in design, development, and workflow automation.
- Monitor website performance via Google Search Console for indexing, SEO, and issue resolution.
- Brainstorm and implement ideas to improve SEO across all company websites.
- Create and manage social media content across Facebook, Instagram, and LinkedIn, including visuals, captions, and marketing campaigns to drive engagement.

FRONTEND WEB DEVELOPER

PADES Printing (Freelance)

September 2023 - November 2023

- Built responsive business websites with ReactJS, Bootstrap, HTML, CSS, and JavaScript, improving user experience and usability.
- Designed user-friendly layouts in Figma and managed projects using Jira and Slack, ensuring smooth teamwork, on-time delivery, and effective client communication in an agile setup.

WORDPRESS DEVELOPER INTERN

VisibleTeam Solutions OPC

July 2022 - September 2022

- Designed and maintained user-friendly web pages with Elementor and WordPress, ensuring strong visuals, smooth functionality, and up-to-date site performance.
- Coordinated with teams using online tools to manage multiple websites, align design with technical needs, and deliver projects on time.
